### Fourth Quarter and Fiscal-Year 2023 Outlook:

"We were very pleased with how we performed during the third quarter and believe that the 43% year-to-date growth rate in revenue less ancillary services reflects the strength of our business. As a result of this success, we are raising our Fiscal-Year outlook before FX impacts," said Mike Ellis,

CFO of Flywire. “Specifically, our updated outlook reflects the addition of \$1.0 million attributable to the StudyLink acquisition and an additional \$1.6 million in the fourth quarter related to underlying organic strength in our business. These factors are offset by an estimated \$3.8 million in foreign exchange headwinds based on September 30, 2023 exchange compared to our prior guidance, of which \$2.5 million is attributable to the fourth quarter of 2023.”

Based on information available as of November 7, 2023, Flywire anticipates the following for the fourth quarter and fiscal-year 2023:

	<b>Fourth Quarter 2023*</b>
Revenue	\$91.5 to \$96.5 million
Revenue Less Ancillary Services	\$86.5 to \$90.5 million
Adjusted EBITDA**	\$1.0 to \$4.0 million

	<b>Fiscal-Year 2023*</b>
Revenue	\$394.1 to \$399.3 million
Revenue Less Ancillary Services	\$372.0 to \$376.0 million
Adjusted EBITDA**	\$35.0 to \$39.0 million

\*The Company has assumed foreign exchange rates prevailing as of September 30, 2023. For supplemental information regarding the estimated effects of changes in foreign exchange rates between June 30, 2023 and September 30, 2023 on the Company's updated outlook compared to prior outlook, see the section below entitled “Supplemental Outlook Details.”

\*\*Flywire has not provided a quantitative reconciliation of forecasted Adjusted EBITDA to forecasted GAAP net income (loss) or to forecasted GAAP income (loss) before income taxes within this earnings release because Flywire is unable, without making unreasonable efforts, to calculate certain reconciling items with confidence. These items include, but are not limited to income taxes which are directly impacted by unpredictable fluctuations in the market price of Flywire's stock.

These statements are forward-looking and actual results may differ materially. Refer to the “Safe Harbor Statement” below for information on the factors that could cause Flywire's actual results to differ materially from these forward-looking statements.

#### **Key Operating Metrics and Non-GAAP Financial Measures**

Flywire uses non-GAAP financial measures to supplement financial information presented on a GAAP basis. The Company believes that excluding certain items from its GAAP results allows management to better understand its consolidated financial performance from period to period and better project its future consolidated financial performance as forecasts are developed at a level of detail different from that used to prepare GAAP-based financial measures. Moreover, Flywire believes these non-GAAP financial measures provide its stakeholders with useful information to help them evaluate the Company's operating results by facilitating an enhanced understanding of the Company's operating performance and enabling them to make more meaningful period to period comparisons. There are limitations to the use of the non-GAAP financial measures presented here. Flywire's non-GAAP financial measures may not be comparable to similarly titled measures of other companies. Other companies, including companies in Flywire's industry, may calculate non-GAAP financial measures differently, limiting the usefulness of those measures for comparative purposes.

Flywire uses supplemental measures of its performance which are derived from its consolidated financial information, but which are not presented in its consolidated financial statements prepared in accordance with GAAP. These non-GAAP financial measures include the following:

- **Revenue Less Ancillary Services.** Revenue Less Ancillary Services represents the Company's consolidated revenue in accordance with GAAP after excluding (i) pass-through cost for printing and mailing services and (ii) marketing fees. The Company excludes these amounts to arrive at this supplemental non-GAAP financial measure as it views these services as ancillary to the primary services it provides to its clients.
- **Adjusted Gross Profit and Adjusted Gross Margin.** Adjusted gross profit represents Revenue Less Ancillary Services less cost of revenue adjusted to (i) exclude pass-through cost for printing services, (ii) offset marketing fees against costs incurred and (iii) exclude depreciation and amortization, including accelerated amortization on the impairment of customer set-up costs tied to technology integration. Adjusted Gross Margin represents Adjusted Gross Profit divided by Revenue Less Ancillary Services. Management believes this presentation supplements the GAAP presentation of Gross Margin with a useful measure of the gross margin of the Company's payment-related services, which are the primary services it provides to its clients. Beginning with the quarter ended December 31, 2022, Flywire has excluded depreciation and amortization from the calculation of its adjusted Gross Profit, which it believes enhances the understanding of the Company's operating performance and enables more meaningful period to period comparisons. The Company's previously reported Adjusted Gross Profit and Adjusted Gross Margin for the three months ended September 30, 2022 were recast to conform to the updated methodology and are reflected herein for comparison purposes.

- **Adjusted EBITDA.** Adjusted EBITDA represents EBITDA further adjusted by excluding (i) stock-based compensation expense and related payroll taxes, (ii) the impact from the change in fair value measurement for contingent consideration associated with acquisitions, (iii) interest income, (iv) gain (loss) from the remeasurement of foreign currency, (v) indirect taxes related to intercompany activity, (vi) acquisition related transaction costs, if applicable, and (vii) employee retention costs, such as incentive compensation, associated with acquisition activities. Management believes that the exclusion of these amounts to calculate Adjusted EBITDA provides useful measures for period-to-period comparisons of the Company's business.
- **Revenue Less Ancillary Services at Constant Currency.** Revenue Less Ancillary Services at Constant Currency represents Revenue Less Ancillary Services adjusted to show presentation on a constant currency basis. The constant currency information presented is calculated by translating current period results using prior period weighted average foreign currency exchange rates. Flywire analyzes Revenue Less Ancillary Services on a constant currency basis to provide a comparable framework for assessing how the business performed excluding the effect of foreign currency fluctuations.

These non-GAAP financial measures are not meant to be considered as indicators of performance in isolation from or as a substitute the Company's revenue, gross profit, gross margin or net income (loss) prepared in accordance with GAAP and should be read only in conjunction with financial information presented on a GAAP basis. Reconciliations of Revenue Less Ancillary Services, Revenue Less Ancillary Services at Constant Currency, Adjusted Gross Profit, Adjusted Gross Margin and Adjusted EBITDA to the most directly comparable GAAP financial measure are presented below. Flywire encourages you to review these reconciliations in conjunction with the presentation of the non-GAAP financial measures for each of the periods presented. In future fiscal periods, Flywire may exclude such items and may incur income and expenses similar to these excluded items. Flywire has not provided a quantitative reconciliation of forecasted Adjusted EBITDA to forecasted GAAP net income (loss) or to forecasted GAAP income (loss) before income taxes within this earnings release because it is unable, without making unreasonable efforts, to calculate certain reconciling items with confidence. These items include but are not limited to income taxes which are directly impacted by unpredictable fluctuations in the market price of Flywire's stock.
